

Testimonials on Bravehearts Program

One of the best indicators of success is a satisfied customer

The Primeco Bravehearts program is an extraordinary journey of being...human being. I have discovered aspects of my life-both positive and negative-to guide and teach me, ultimately realizing they are all gifts which make me whole and complete. This program has left me speechless, wondering what's next-from inquiries to trainings & coaching-never a dull moment. I am committed to make a difference in the world, and for me, the Primeco coaching program is the ultimate training ground.

Cindy Gillen-Klenk
Senior Policy Advisor
Office of Senator Blake, Pennsylvania Senate

Primeco Bravehearts program is much more than a training program-they are program for living into one's full potential. It has changed the way I relate to myself and others: I deal with situations in a more powerful and effective manner, I see opportunities and options in difficulties I had not noticed before, I have closer and stronger relationships with people, I am clearer about the commitments and values by which I choose to live, and I am empowered to pursue my deepest dreams and passions in life.

I had entered Primeco Education's coaching programs and found it very effective in attaining my business and personal goals. I was so impressed with the coaching program that I entered their Bravehearts program in January 2007. Since entering this program I have once again achieved goals I never thought were possible for my life. I can now public speak as well as address situations with ease. My communication and people skills have improved 100%. Bravehearts is a program for everyone who desires their life to be successful, enjoyable with the ability to create whatever they desire in life.

I think anyone who is looking to expand their leadership abilities and try to find out what their blocks are in their businesses and even in their personal life if they want to take a lead, if there is something they are inspired by and they want to make a difference in the world I think the Bravehearts Program would be excellent for them to get involved in. My life has actually transformed with my family and my business, in my relationships. It really has been a huge transformation in my life, which had really kind of stagnated. It's been great... It's been awesome.

Ken Westhoff

The Bravehearts program has been an experience of a lifetime. It has pushed me to a much higher caliber of self confidence and I know now that anything is possible and my capabilities are endless.

All I can tell you is to hold on to your seat, because you are in for one action packed learning experience! In this course you will learn what your integrity is, how to be responsible and how to show empathy and have the foresight to become a more powerful person. You will get present that your life is happening right now.

When looking at my own integrity I have learned that I have not been true to my self, I have not enrolled others and I am always trying to do way too many things at once. To clean up my own integrity I realized that I needed to stop being such a perfectionist and to enroll others into my life. I have learned so much about myself inside and out. I have not only learned what a powerful person I can be, I have also learned that I have the power to empower other people. This is so AWESOME!!! I would recommend this way of thinking to anyone who wants to get present that their lives are happening right now!

I have lived my life as a high performing, goal oriented person and have many accomplishments to my credit. But there was always something missing. Bravehearts has given me the opportunity to reclaim and renew my relationship to myself and expose the big picture for my life.....life has taken on new meaning and purpose.

Lorraine Kay-Parise

My experience of the Bravehearts Program has already exceeded my expectations. It has opened up possibilities in my marriage, my business and my relationships in general. I find myself taking actions in these areas that I simply couldn't see as available before. As a result, my sense of power and fulfillment has grown. The best part for me, however, is that my wife and I have begun to rediscover each other after more than 11 years of marriage!

Kevin Courington
Attorney in law

While participating in Bravehearts program I became aware that my framework for dealing with every day life and business issues was the core of my frustrations. Bravehearts taught me how to be a powerful leader and to have integrity, responsibility and accountability. The tools of Bravehearts have integrated everything into one package to use in my life and business. I feel a freedom and accomplishment of all

the challenges that I encounter everyday. Thank you Primeco for the true care you have for each and every participant you have and always being there for us.

Homework assigned during the Bravehearts course gave me access to a different way, a more powerful and playful way of relating to others and myself. I saw that I had been resigned about aggressively pursuing romantic relationships after my last relationship ended. I haven't seriously dated in 16 months. Yet when I was directed to go on a date for Valentine's Day for a homework assignment, in a matter of days, I had three different dates lined up. The shift for me occurred in who I was being and what I was thinking.

The Bravehearts program has impacted my life in profound ways. The design of the program has made a difference in how I relate to myself and how I relate to others. I am able to be more confident and at ease with my decisions and in my relationships. I would recommend this program to anyone looking to jumpstart any area of their life where they are stuck and suffering. Bravehearts lets you take a look at those areas of your life where you have lost power and helps you to understand why you've lost it and then helps you restore it. Bravehearts is like a boot camp for living.
